

ELEVATION™ X ELECTRIC

NEFB36LCD-MF | Built-in electric fireplace

Meet Napoleon's Elevation X Electric Fireplace. Featuring unmatched realism, zero emissions, and the ambiance of a real fire. An LCD rear panel and multi-layered flame technology create incredible depth, with wood or gas flame visuals captured from the gas Elevation X for true authenticity. Built-in speakers play crackling sounds and a Glowing Split Oak Log Set with modulating ember bed enhance the realism. Control it your way with the included remote, wall mount controller, Napoleon Home app, or smart home system voice integration. No chimney or venting required for quick installation.

Controls

Remote

Enjoy added convenience with the included remote—control every function of your fireplace, including power, thermostat, 7-day schedule feature, flame, ember bed, and top lights, from the comfort of your couch.

Napoleon Home app

Access more customization options not included on the remote with the Napoleon Home app. Create your Favorite settings, set a schedule, and choose from a multitude of flame, ember bed, and top light combinations.

Smart home system

Easily control select fireplace settings with the sound of your voice through Google Home and Alexa devices.

Wall-mount remote

This optional remote is ideal for commercial settings and features black and white faceplate options.

Innovations

Choose your fuel later

With the same rough framing as our Elevation Series Gas Fireplaces, you can frame now and choose your fuel later

Flame technology

Advanced LCD technology creates remarkably realistic flames with multiple patterns where each flame emulates the intricate details of a genuine fire. Paired with authentic layered flame technology which mirrors real fire dynamics, growing from front to back and side to middle.

Built-in speakers

Mimics the crackling and popping sounds of a real fire, matching each flame pattern. This enhances the immersive experience and makes it indistinguishable from traditional fireplaces.

Smart technology

Offers the ability to connect to your phone so you can easily and conveniently control every feature of the fireplace from anywhere, even when you're not home.
